

Looking For a PhD Student for a European Union Project

We are looking for a Ph.D. student who will pursue his/her Ph.D. degree at the Department of Mechanical Engineering of Middle East Technical University (METU), Ankara Turkey and work in a Horizon 2020 European Union Project. The total duration of the project is 36 months and the selected student will have a monthly payment of approximately 2200 Euro (net) including subsidiary payments. The applicant should have a strong background on Mechanical Vibrations and Mathematics. Applicants that have a background on Nonlinear Vibrations and/or Experimental Vibrations are preferable. If you are interested in this position please visit the web page of the project (<http://www.msca-expertise.eu>) for further information and official application. The PhD study will be under the supervisions of Prof. Dr. H. Nevzat Özgüven (ozguven@metu.edu.tr) and Assoc. Prof. Dr. Ender Cığeroğlu (ender@metu.edu.tr).
